I was good friends with Tierney for close to 10 years. She got me access to my first concert to take photos and we would always go to concerts all over the East Coast. I still have Polaroids of us. We even have matching tattoos. She always listened and tried to cheer me up. Always encouraged me to take photos and I've gotten pretty good because of her constant support. I miss her very much. I love her very much even though we lost touch the last 4 years. I can't imagine what you are dealing with and I'm terribly sorry for your pain and loss. I hope you find peace and comfort in the memories you did share.

Tierney was such a unique individual and I especially loved that about her. As her media Specialist it was most unusual to find a young girl in the non-fiction section of the library. However, that was her favorite spot. She later became interested in photography and did a wonderful job taking pictures at my youngest son's rehearsal party. Her talents were numerous! One of the memories that stands out the most is when her senior pictures arrived. Tierney had these cute freckles on her face that so matched her personality. The photographer had done touch-ups and her freckles did not show in the photo. Tierney was upset because she didn't like the new Tierney. She wanted to look just like who she was. That was Tierney. She wanted to be herself! My God grant the family an extensive amount of grace as they navigate life without their precious daughter, sister, aunt, granddaughter and friends. I loved you Tierney!
