“ *Grandma Fish, you've always been there for me. I loved my quite time at the old house making bread together then sitting in the kitchen window eating it. Making our many crafts, no you didn't get me addicted, you accomplished the goal of making sure i knew how to do all of them. Playing master handy man in the house in La porte and decking it up. We all had fun playing around the property. I learned so much from you. Thank you for being willing to be that special mom everyone needs, that turned into grandma. ...lol. you did both jobs so well, i always enjoyed our talks good or bad, i can now see u were right...lol. I got my last fussing in July...lol followed by the hug kiss and bonus snuggles. I will treasure them forever. What i was told rings in my heart today. I love you so much grandma. God gave us an awesome social lady when he gave us you. I will miss u. Give my momma a hug and kiss for me*
